All POWERFORCE® generator sets are offered for prime and standby applications, from 150kW to 2000kW. Our MTU and Detroit Diesel packages have established an excellent reputation for reliability in rugged applications, such as the Oil & Gas Industry. Whether for prime or standby power applications, POWERFORCE® generator sets are the best answer to your power needs.

POWERFORCE® *A Premium Brand for Power and Drive*

# GENERATOR SETS

## GENERATOR PACKAGING

POWERFORCE® generators are packaged in a purpose built generator set assembly and test facility. The POWERFORCE® engineering team have many years of experience in designing packages for both the prime and standby power markets. Each POWERFORCE® generator set is packaged and tested by highly experienced technicians which are available to schedule start-up and support.

CONTROL PANEL MODEL: DSCN2327

## YOUR PREMIUM GENERATOR SET

- ▶ Purpose built generator assembly facility
- ▶ Stainless Steel NEMA 4 type box
- ▶ MTU Diesel & Detroit Diesel powered
- ▶ All units dynamometer tested
- ▶ Certified factory technicians
- ▶ 60-years power generation experience
- ▶ Superior performance and reliability
- ▶ Backed-up by POWERFORCE® warranty

Alternators Options: POWERFORCE® 1800 rpm generator options include Stamford & Marathon. 1200 rpm alternator options include Kato, Leroy-Somer, and Baylor  
 Standard Features: Sets are supplied on a base frame complete with vibration isolators, mounted radiator, control panel, and filters  
 Options/Accessories: Include: Exhaust silencer, batteries, block heater, battery charger, emergency air shut down, circuit breaker, and remote radiator

POWERFORCE® generators are designed to meet the rugged demands of markets such as construction, the Oil & Gas industry (from drilling to production), mining, and other prime power markets. The POWERFORCE® control box was developed specifically for rugged environments such as the Oil & Gas market that requires very robust control systems. In addition to prime power, POWERFORCE® generators rated at standby are available for standby power applications.
